

FALCON WATERFREE® URINALS

When it comes to urinals, nothing compares to the technological innovation and unsurpassed performance of Falcon Waterfree® urinals. Falcon Waterfree urinals offer numerous benefits that will make your job easier and help fulfill your strategic facility plan. Falcon Waterfree urinals reduce water and sewer costs, lower maintenance and repair bills, and create more hygienic, odor-free restrooms. A patented cartridge eliminates the need for water, conserving up to 40,000 gallons or more per unit each year. Pipe-in-pipe technology assures excellent flow even when installed in most older horizontal pipe nipples with flat slope. All maintenance costs, flooding and vandalism problems associated with flush valves are eliminated.

BENEFITS

- Uses no water for operation
- Five times less bacteria than flush urinals
- Reduced water and sewer costs
- No costly flush valve or sensor repairs
- No replacement sealant needed
- Provides downhill flow, helps reduce clogs
- Minimal care and easy cleaning
- Improved hygiene and safety
- Dual barrier protection
- Effectively odor-free
- Ideal for retrofit and new construction

FEATURES

- Touch-free operation
- Mechanical-free design
- Patented locking cartridge
- Maintenance-free cartridge
- Smooth, non-porous surface
- Vitreous china bowl

SYSTEM INCLUDES

- Vitreous china bowl
- Installed cartridge housing
- Cartridge kit*
- Exclusive pipe-in-pipe technology*
- One-piece wall bracket with anchors*
- Drain line test cap*
- Uni-coupler*
- Installation Instructions

CARTRIDGE KIT* INCLUDES

- One sealed cartridge
- Pre-measured liquid sealant pack
- Installation key
- Disposal bag
- Plastic gloves
- Instruction sheet

“Falcon Waterfree urinals are predicted to be 500 times more effective against back migration of sewer gases as compared to conventional P-trap water barriers.”

Michael Hoffman, Ph. D
California Institute of Technology
